## **SUSTAINABILITY POLICY**

Following consideration of the importance of environmental sustainability and a commitment to be a benefit to the Calderdale community, Reginald Maude Ltd is committed to strive to achieve environmental and social sustainability within the electrical and data installation industry.

We recognise the importance of delivering an affordable and sustainable installation as part of a buildings power, lighting and communications infrastructure. This will contribute to our customers cost effectiveness and their contribution to the quality of life of their premises occupants and of the local environment.

Our vision is for more energy efficient installations for our customers and we are conscientious in how we source our materials and minimise waste.

Reginald Maude Ltd will comply with all relevant legislation and regulations, and we strive to achieve best practice throughout our projects.

The whole management team take responsibility for ensuring ongoing environmental performance, identification of environmental risks, recording and monitoring of impacts and implementing environmental and social sustainability measures.

Special consideration will be given to employing and empowering our staff and wherever efficient and environmentally sustainable, products and services will be sourced locally.

We encourage staff to present our commitment to environmental and social sustainability and our status to our customers, suppliers and contractors through regular focus groups and newsletters.

Signed
